ACCESS HOLDINGS INTERNATIONAL

Access Holdings International (AHI) is a global supplier of an extensive range of vertical access man lifts ranging from 3.8 to 20 m working heights. Founded in 2003, AHI was created with an objective to specialise in the design, manufacture, marketing and distribution of vertical access personnel lifts for the Australian & International markets. From its humble range in the beginning, it has grown to include more than 40 models of vertical access platforms. Today, AHI has one of the most extensive range of vertical access personnel lifts throughout the world covering the highly popular sliding rail UG series, the unique and compact central mast UE series, the twin mast two person capacity UT series and the ladder replacement work platforms UB & UBM series (mini scissor lifts).

AHI products are made under ISO9001 quality management system and are fully compliant with European CE standards EN280 and EN60204-1, Australian standards AS1418.10 as well as other country based compliance standards. Commencing with a strong focus in the Asia Pacific region, AHI today distributes products to more than 40 countries and prides itself in the supply of high quality, cost competitive and innovative vertical access personnel lifts satisfying the demands of its global customers.
